printreleaf™

PrintReleaf Certification empowers you to sustain and grow our global forest system...one print job at a time.
PrintReleaf automatically measures your paper consumption totals through third-party integrations.

We then use your paper consumption totals to calculate your paper footprint which is converted into a specific and accurate number of trees.

You are empowered to releaf forests based on your paper footprint. The reforestation projects you releaf are up to you! PrintReleaf provides certificates and reports about the forests you have releafed over time.

MY DASHBOARD · printreleaf™

112,493,545 pages

13,499 trees

For **Office Print or Managed Print Services (MPS) customers**, PrintReleaf measures paper consumption through technology integrations with print monitoring software applications.

For **Commercial Graphic Print customers**, PrintReleaf measures paper consumption for each unique print job through technology integrations with MIS/ERP software solutions. PrintReleaf collects the paper volume, weight, and size data to drive the PrintReleaf service.

PrintReleaf uses this data to plant the equivalent number of trees through a network of certified reforestation projects located around the world. Once trees are planted, PrintReleaf administers an 8-year audit process to track the progress and survivability of the trees.

Benefits

Environmental Reforestation
Reforestation provides environmental and ecological reforestation where the planet needs it most.

Automation
Completely automated, end-to-end integration from printer to seedling with no software to install.

Certification
The PrintReleaf ecosystem is verified by our third-party certifying body, SGS International.

Recognition
Through awareness, social marketing, and certifications, you can see and share the positive impact you have on forests around the world.
